

TECPEL® **TECPEL CO., LTD.**

Type K Thermocouple Probe

Model: TPK-01BN

Type K Thermocouple Probe is Inexpensive and widely used in temperature measuring

Product Introduction

Standard type K thermocouple temperature measurement Probe

Measurement Specification

Measuring Range : -50~200°C (-58~392°F)
Core Diameter : Ø0.32mm
Type of Thermocouple: Type K

Product Features

Cable Color: Dark Brown
Industry Standard Connector :

Product Information

Working Environment: -50~200°C
Storage Environment: -50~50°C
Exterior: 1,000 mm
